

Chairman's Award Feedback Form

Team Number 4063

Team Name TriKzRKidz

Event Date April 6-9, 2022

Thank you for providing a Chairman's Award presentation to the judges today. The judges enjoyed learning about your team and your journey to promote *FIRST* and STEM.

For the 2022 season, all teams that interview at an event will receive feedback. Judges will answer the following two questions and responses will be emailed to the team's lead mentor 1 and 2 after the event.

- 1) An area the team has an opportunity to improve:
 - a. Consider converting to a digital presentation, both to improve and reinforce the content, as well as to have something to leave with the judges for their reference during deliberations
 - b. Consider seeking out additional sponsors; your long running sponsorship with The Bank & Trust is great but additional sponsors will help sustain your program if that partnership is reduced.
 - c. The efforts to mentor additional FRC teams is commendable, but seems to come from teams / people reaching out to 4063. Consider how to use this experience to expand that, and take the initiative to get new teams started.

- 2) Something that really impressed the judges:
 - a. Great work securing Rotary Club sponsorship for FLL Explore teams in elementary schools
 - b. Good luck as you transition from e-CADET to FLL, keep the focus on the kids and the core values that make FIRST unique!
 - c. Robot in a week seems to have helped your team recover from the effects of the pandemic – both for skills building and membership pipeline. Definitely a differentiator for your team and a key building block for leading others!
