

# Chairman's Award Feedback Form

Team Number 4063

Team Name TriKzR4kIDz

Event Date 3/5/22

Thank you for providing a Chairman's Award presentation to the judges today. The judges enjoyed learning about your team and your journey to promote *FIRST* and STEM.

For the 2022 season, all teams that interview at an event will receive feedback. Judges will answer the following two questions and responses will be emailed to the team's lead mentor 1 and 2 after the event.

- 1) An area the team has an opportunity to improve:

Your presentation could be better by relying less on notes and a video, and simply talking to us.

There were several times in the essay where things outside of this timeframe were brought up without correlating them to the past 3 years. Some of them are amazing, but the Chairman's award focuses on the past 3 years. We recommend finding ways to tie your previous success to current success or not including them.

- 2) Something that really impressed the judges:

You have a clear passion for FIRST and your team. Many teams struggled during the pandemic. You did too, but we appreciated how your essay shows how you moved through your struggles to pursue local outreach.

We loved your pink hats.

Great eye contact during the presentation. It helped make us feel talked to instead of talked at. Many teams get nervous but you gave off an air of confidence.
